Interesting Premise That Could Have Been Written Better
Von Frank Courtney
The author and the series is new to me. I found the premise of the book to be somewhat plausible especially in view of the new mission of the NAACP regarding the rebel flag in the Southern states. The idea of a new nation arising from the current form of liberal government is a novell one and that it is a conservative, *lessez faire*, form of government makes one long for a government that will literally interpret the Constitution. Ben Raines wages war the way it is supposed to be done. Too bad our politicians won't listen. I wish Mr. Johnstone had taken more time with the book. It moved too fast for the ground he covered and there was not as much character development as I would have liked. He may have covered such detail in previous books in the series, however; those which I have not read. If you are conservative, believe in a conservative form of government, want to live your life in peace without government in your hair all of the time, you will enjoy this book.

Von Brian L. Baskind
Once again, William W. Johnstone (and his fictional hero, Ben Raines) show readers how to bring law and justice to a world in chaos. Recommended!

Kurzbeschreibung "We don't fool around with two-bit warlords, punks, and thugs. If they oppose us, they're dead." -- Ben Raines
Target: Europe
First the Liberals took all the guns. Then they took away the people's freedom. Now, Ben Raines and his patriot army are driving a weakened United States government into full-fledged retreat. Emerging as an unstoppable force, the Southern States are winning over one strategic ally after another, from the states in the American Northwest to the Canadian provinces--all wanting to be a part of a society based on law, justice, and old-fashioned values enforced by the barrel of a gun. But to be recognized by the world community, the Southern States of America must pay a price. The U.N. wants Ben Raines's warriors to play cops in a world overrun by criminals, gangs, and cannibalistic punks. Now, Raines and his army must engage in an all-out war of liberation across a crime-ravaged Europe, one bloody mile at a time. . .
