Von Ralph W. McGehee : Deadly Deceits: My 25 Years in the CIA (Forbidden Bookshelf) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Deadly Deceits: My 25 Years in the CIA (Forbidden Bookshelf) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. One of

the only CIA-critical books written from the inside Von Wade Frazier Ralph McGehee's *Deadly Deceits* is one of the most sobering books you will ever read if you are an American. Written very conservatively, the book slowly climaxes with a series of haunting revelations. It is ultimately a gripping and enlightening book. It was very influential to me when I was figuring out how our nation really operates. The CIA and United States are not the good guys. They never have been. McGehee's book is a strong antidote to the fairy tale nationalism that American children have been steeped in. What McGehee went through just to publish his book is worth its own book. The CIA went to great lengths to try to prevent the publication of his book, and he receives their harassment to this very day. Ralph is a great man who is doing his part to stop the killing of the innocents. I highly recommend his book. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Von H. B. Franklin The first edition of this book was removed from libraries and bookstores by the C.I.A. They knew what they were doing! McGehee, once a superpatriotic star football player from Notre Dame, takes us step by step through his own terrifying education about the Company from inside. This book is essential reading about the Vietnam War and the future of America in the 21st century.

Kurzbeschreibung A veteran of the Central Intelligence Agency unmaskes its culture of lethal lies in this devastating expos, now with a new foreword by David MacMichael. Ralph W. McGehee was a patriot, dedicated to the American way of life and the international fight against Communism. Following his graduation with honors from Notre Dame, McGehee was recruited by the Central Intelligence Agency in 1952 and quickly became an able and enthusiastic cold warrior. Stationed in Southeast Asia in the mid-1960s, he worked to stem the Communist tide that was sweeping through the region, first in Thailand and later in Vietnam. But despite his notable successes in reversing enemy influence among the local peasants and villagers, McGehee found himself increasingly alienated from a company culture built on deceit and wholesale manipulation of the truth. While his country was being pulled deeper and deeper into the Vietnam quagmire, McGehee awoke to a chilling reality: The CIA was not a gatherer of actual intelligence to be employed in a legitimate war against dangerous enemies, but a tool of the presidents foreign-policy staff designed solely to stifle the truth and fabricate facts that supported the agencies often immoral agenda. With courage and candor, Ralph McGehee illuminates the CIA's dark catalog of misdeeds in his stunning, no-holds-barred memoir of a life in the service of deception. Startling, eye-opening, and infuriating, *Deadly Deceits* is an honest and unflinching insiders look at a toxic government agency that the author cogently argues has no useful purpose and no moral right to exist.
