shipwreck stories read like detective pieces. Von Ein Kunde I've seen Titanic about a half-dozen times, and the author offers eight fascinating tales of other ship disasters, including the Lusitania. You could make eight more movies out of this book, with or without Leo D. The author has obviously done a ton of homework in piecing together this stuff and comes across as maritime's version of Sherlock Holmes. This is really fun reading and the author's own wry comments of analysis are precious. This book is as fun as it is informative!

Kurzbeschreibung Lost at Sea features the incredible stories of eight ships and their passengers, some of which vanished with hardly a trace - or no trace at all. Veteran history and mystery writer A.A. Hoehling explores these previously unexplained maritime mishaps with the skill of a detective seeking to uncover a murderer.
