Author seeks input Von Ein Kunde I wrote the original book in 1963 (as Lost Desert Bonanzas) to mark 25 years of Desert Magazine lost mine stories. The main appeal was Norton Allen's great cartography (this is the only kind of map book that gets better as the maps are outdated by freeways and etc.). I would like input from treasure-seekers, but all I know about the particular lost mines is recounted in the book. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Lost
