Detailed Guide to Memorials of the SommeVon William BozicThis text has plenty of photos (bw and color), nice maps, helpful hints for tourists, and insightful vingettes of the soldiers and incidents of all sides. There is also a section at the back of the book listing and giving brief histories on commemorative groups and war graves commissions of various nations. The United Kingdom and British Commonwealth are well represented.I would strongly suggest this book for those

going to the Somme, as it might be good for quick information on various monuments which a person might pass on the road.
