Von Anghel Leonard : Mastering JavaServer Faces 2.2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Mastering JavaServer Faces 2.2:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Ohne Vorkenntnisse hat man keine Freude an diesem Buch.Von Gregor Czempikman sollte schon mal gute Vorkenntnisse in JSF mitbringen, um hier mitzukommen, denn:"Who this book is forThis book is a perfect symbiosis between JSF 2.0 and 2.2. It is dedicated to JSFdevelopers who have previous experience and want to upgrade their knowledgeto the new JSF 2.2. By fortifying your knowledge on JSF 2.0 and adding the powerof JSF 2.2, you will soon become a JSF expert"fr mich leider (noch) nicht geeignet.0 von 0 Kunden fanden die folgende Rezension hilfreich. Kindle formatVon NaumanIts is a comprehensive book, unfortunately Kindle for PC doesn't display the outline for this book. Tech books are read on PC with simultaneous coding on screen.I guess because of mistake from publisher, is lousy in

updating Kindle for PC but can't rate it.

Kurzbeschreibung Master the art of implementing user interfaces with JSF 2.2 About This Book Fortify your JSF solutions by combining the powers of JSF 2.x (2.0, 2.1, and 2.2) Get acquainted with the newly introduced features in JSF 2.2, such as the faces flow, stateless views, pass-through attributes and resource library contracts Browse through over 300 well defined JSF applications presented in a concise and clear cut approach Who This Book Is For If you are a web developer who uses JSF, this is the book for you. Catering to an intermediate-advanced audience, the book assumes you have fundamental knowledge of JSF. It is intended for the developer who wants to improve their skills with the combined power of JSF 2.0, 2.1, and 2.2. What You Will Learn Discover how to write custom JSF 2.2 themes, custom factories, handlers, renderers, and components Access unlimited developing scenarios with the concept of dependency injection Enhance your applications with JSF 2.2 upload component and HTML5 friendly markup Master the new JSF 2.2 Window ID technique Gain insights into managing the application state with stateless views Explore the new CDI @ViewScoped and @FlowScoped (detailed presentation) In Detail

JavaServer Faces (JSF) is a leading framework and core component of Java Platform Enterprise Edition. JSF is the standard Java EE technology used to build web user interfaces. JSF 2.2 is a recent release with an extensive list of new features, some of which have been expected for a long time and are now ready to be implemented. Starting out with a very basic topic, Expression Language, you will continue onwards covering a wide range of JSF sectors, such as JSF communication, JSF scopes, and so on. Throughout the book, you will master JSF artifacts (AJAX, HTML5, configurations, renders, handlers, listeners, events, factories, tabular data, custom components, Facelets, and so on) in a compendium of programming practices and informative examples. You then round off with a detailed discussion on the capabilities of Facelets. Overall, this book helps you gain knowledge on the latest JSF features in an interesting and original approach. Adding these skills to your personal arsenal will turn you into a veritable JSF master.
