Von Eric Keller : Mastering Maya 2009 before purchasing it in order to gage whether or not it would be worth my time, and all praised Mastering Maya 2009:

Kundenrezensionen Hilfreichste Kundenrezensionen 2 von 2 Kunden fanden die folgende Rezension hilfreich. Bestes Buch zu Maya überhaupt Von dingenskirchen Schon das noch nicht ausgepackte Paket beeindruckt. An diesem "Schinken" hat der arme Postbote einiges zu schleppen. Ein wirklich absolut gelungenes Kompendium an echtem Profiwissen zu Maya 2009 (und somit auch uneingeschränkt Maya 2010, da sich ja hier am Programm selbst überhaupt nichts geändert hat - es sind ja lediglich einige Programme hinzugekommen (z.B. "Toxik" und die Version Complete gibt es nicht - Maya 2010 hat nun den Gesamtumfang von Unlimited... Das nur nebenbei). Der Autor geht zunächst auf einige Grundlagen ein, geht dann aber schnell tiefer in die Materie und erklärt sehr verständlich und ausführlich Themenbereiche wie Dynamics, Cloth (nCloth), Fur, Hair, und die neuen nParticles. Es werden sehr viele Mental Ray Shader und deren Anwendungsgebiete erklärt - die beiliegende DVD beinhaltet viele nützliche Beispiele. Ich kenne kein anderes Buch, das auch nur annähernd so viel detailliertes und nützliches Wissen beinhaltet. Eine unschätzbare Ressource,

die in jedes "Maya-isten"-Regal geht. Ich empfehle auch die entsprechenden Reviews auf .com dazu zu lesen - ich bin nicht der einzige, der extremst begeistert ist von diesem Werk. 5 Sterne sind eigentlich zu wenig.

Kurzbeschreibung The Ultimate Maya 2009 Resource for Intermediate to Advanced Users If you already know the basics of Maya, now you can elevate your skills with Maya 2009 and the advanced coverage in this authoritative new reference and tutorial. From modeling, texturing, animation, and visual effects to high-level techniques for film, television, games, and more, this book provides professional-level instruction on Maya Complete and Maya Unlimited. This fully updated book brings you up to speed on Maya 2009's new features and expands your skills with advanced instruction on cloth, fur, and fluids. You'll learn Dynamics, Maya Muscle, Stereo Cameras, Assets, rendering with mental ray, and more. Filled with challenging tutorials and real-world scenarios from some of the leading professionals in the industry, this one-of-a-kind guide gives you valuable insight into the entire CG production pipeline. If you've been looking for a complete, professional-quality Maya resource to turn to again and again, this is the book for you. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.
