Von Ingo Hilgefort : Mastering SAP BusinessObjects Design Studio with SAP NetWeaver BW (English Edition)
before purchasing it in order to gage whether or not it would be worth my time, and all praised Mastering SAP
BusinessObjects Design Studio with SAP NetWeaver BW (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich.
Indispensable know how for small money ... Von Lars S. Great book to start with Design Studio - especially for non-developers who need an introduction in the scripting language provided by Design Studio

KurzbeschreibungThe definitive reference for building SAP BusinessObjects Design Studio applications and dashboards based on SAP NetWeaver BW. This book does cover also updated content for SAP BusinessObjects Design Studio 1.2 now. You will learn:- How connect SAP BusinessObjects Design Studio to SAP NetWeaver BW and SAP HANA- How to navigate the new design environment from SAP BusinessObjects Design Studio- How to create from simple to complex dashboards- How to integrate typical SAP NetWeaver BW functionality, such as Exceptions, Conditions, and Currency Conversion into your dashboard- How to create your own dashboard and application templatesThis is the definitive source for information on SAP BusinessObjects Design Studio and it provides you with a comprehensive functional overview, data connectivity guidance, and basic/advanced usage scenarios. The complete book is written in a very simple to follow step by step approach with a lot of examples that can be leveraged right away. This is the 10th book of the author in the area of integrating SAP BusinessObjects BI products with SAP NetWeaver BW and he shares his experience and knowledge from several global customer projects in this eBook.
