Von Orr Kelly : Meeting the Fox: The Allied Invasion of Africa, from Operation Torch to Kasserine Pass to Victory in Tunisia before purchasing it in order to gage whether or not it would be worth my time, and all praised Meeting the Fox: The Allied Invasion of Africa, from Operation Torch to Kasserine Pass to Victory in Tunisia:

KundenrezensionenHilfreichste Kundenrezensionen1 von 4 Kunden fanden die folgende Rezension hilfreich. The Battle for TunisiaVon Sigmar MannThis Book focus mostly on the American part of the Tunisian Campaign.It is easy to read and contains some good maps. The mayor flaw of the Book is that it is not critical enough about the American Involment.Alger and Marocco were part of Vichy France, which was regonized as a neutral state by the Americans. What happened there in November 1942 was an attack upon an unaware neutral country, nothing more or less.Germany was condemns for attacking "Neutral" Belgium in 1940. So Eisenhower should have been at the Nuernberg Trials next to GFM von Brauchitsch. The Accusation was attacking a neutral Country!Also not enlightened is the case of Admiral Darlan, who was murdered on 24th December 1942 under mysterious circumstances. To win a War every means seems to be justified, at least for the Winner.

KurzbeschreibungPraise for Meeting the Fox "Orr Kelly has dramatically brought to life the desert war by masterfully weaving the view of higher headquarters with the pathos of the foxhole. Meeting the Fox takes the reader on a gripping journey from North Africa's beaches and drop zones, the practically forgotten disaster at Sidi bou Zid, to the final battles in Tunisia. Meeting the Fox is destined to rank among the best narrative histories on the American experience in North Africa." -- Patrick O'Donnell, author of Beyond Valor and Into the Rising Sun "An almost bullet-by-bullet, shell-by-shell account, Meeting the Fox offers riveting personal experiences from those who fought the Axis forces during the desperate campaign for North Africa." --Gerald Astor, historian and author of A Blood-Dimmed Tide and The Greatest War, Vols. I-III As their unproven commanders struggled to match wits with the wily Desert Fox, 100,000 poorly equipped, undertrained, and inexperienced GIs battled their way across North Africa. Hobbled by inferior weaponry and an inexperienced officer corps, these green but courageous citizen soldiers clashed head-on with the fabled German Afrika Korps and its legendary commander, Erwin Rommel. Meeting the Fox tells the unforgettable tale of the men who transformed themselves, in the heat of battle, from a poorly organized army of convenience into a relentless and unstoppable fighting force.Rezension"Orr Kelly has dramatically brought to life the desert war by masterfully weaving the view of higher headquarters with the pathos of the foxhole.
