Von Erlend Dalen : Microsoft Dynamics AX 2009 Programming: Getting Started before purchasing it in order to gage whether or not it would be worth my time, and all praised Microsoft Dynamics AX 2009 Programming: Getting Started:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Einstieg in Dyn AXVon BerniDas Buch hat mir ganz ordentlich geholfen, einen Einstieg in AX 2009 zu finden.Wenn ein Einsteiger die Beispiele zum Laufen bringen will, ist es fr ihn an ein paar Stellen nicht ganz leicht, da Zwischenschritte fehlen. Sonst habe ich einen guten Eindruck, da es die wichtigen grundlegenden Themen behandelt. Eine feinere Numerierung wre manchmal hilfreich.0 von 0 Kunden fanden die folgende Rezension hilfreich. Gute EinfhrungVon Markus NbauerGute Einfhrung fr alle die mit Dynamics AX programmieren wollen. Wer keinen Zugang zu den Development Trainingsunterlagen von Microsoft hat kann sich beruhigt diese Buch zulegen. Man darf

aber nicht zu viel erwarten. Darum heißt es auch "Getting Started"

Kurzbeschreibung This book takes you through the important topics of Microsoft Dynamics AX with clear explanations and practical example code. It is an easy-to-read, illustrated tutorial with plenty of step-by-step instructions for AX development projects. This book is for developers on the Microsoft platform who want to develop and customize the Dynamics AX product. The book assumes that you have some experience with developing in the Microsoft environment, but no experience of development with AX is expected.

ber den Autor und weitere Mitwirkende Erlend Dalen started working as a developer with the first version of Axapta in 1998. From 2000 he spent 2 years developing eCommerce, mobile, and integration solutions in Java for a Norwegian IT consultancy company. He has worked for Columbus IT since 2002, first as a senior developer in Norway and in USA and now as the technology manager of the Norwegian branch, where his responsibilities have been to implement new technology areas, creating an eCommerce solution for Dynamics AX, and being the technology solution architect in internal and customer projects.
