Von Vanessa L. Williams : Microsoft SharePoint 2007 For Dummies before purchasing it in order to gage whether or not it would be worth my time, and all praised Microsoft SharePoint 2007 For Dummies:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. MOSS 07 for dummiesVon Walter E. DavisThe book is OK. Right out from the beginning its missing alot of information about really preparing for MOSS 07. I was hoping on some information on the needed user accounts for MOSS. There was next to no information. The book really just brushes the surface and doesnt go into depth on any subject of MOSS. Honestly anyone looking for a book on MOSS 07 probably allready knows everything that is provided. All in all on a scale of 1-10 its 5 maybe 6.0 von 0 Kunden fanden die folgende Rezension hilfreich. Man bekommt was man erwartetVon Christian RehmMan bekommt was man erwartet, ein buch was die oberste schicht beschreibt aber nicht zu sehr in die Teife geht.,Fr dieAnfange um ihn mal zu installieren sehr nett, fr die Adminsitration fir eine Firma nicht

teifegehend genug

Kurzbeschreibung Microsoft SharePoint now has a 10 percent share of the portal market, and the new release, which features enhanced integration with Office 2007, is sure to give SharePoint a boost Offers clear instructions and soup-to-nuts coverage of this complex product, focusing instead on practical solutions to real-world SharePoint challenges Features tips, tricks, and techniques for administrators who need to install and configure a SharePoint portal as well as ordinary users who need to populate and maintain the portal and use it for collaborative projects Topics covered include setting up a SharePoint portal, matching SharePoint to business needs, managing portal content, branding, collaborating on SharePoint sites, using a portal to improve employee relations and marketing, putting expense reports and other interactive forms on a portal, and monitoring and backing up SharePoint Kurzbeschreibung Microsoft SharePoint now has a 10 percent share of the portal market, and the new release, which features enhanced integration with Office 2007, is sure to give SharePoint a boost Offers clear instructions and soup-to-nuts coverage of this complex product, focusing instead on practical solutions to real-world SharePoint challenges Features tips, tricks, and techniques for administrators who need to install and configure a SharePoint portal as well as ordinary users who need to populate and maintain the portal and use it for collaborative projects Topics covered include setting up a SharePoint portal, matching SharePoint to business needs, managing portal content, branding, collaborating on SharePoint sites, using a portal to improve employee relations and marketing, putting expense reports and other interactive forms on a portal, and monitoring and backing up SharePoint Synopsis Microsoft SharePoint now has a 10 percent share of the portal market, and the new release, which features enhanced integration with Office 2007, is sure to give SharePoint a boost. This book offers clear instructions and soup-to-nuts coverage of this complex product, focusing instead on practical solutions to real-world SharePoint challenges. It features tips, tricks, and techniques for administrators who need to install and configure a SharePoint portal as well as ordinary users who need to populate and maintain the portal and use it for collaborative projects.
