Malcolm Barber opens a Pandora box...Von JeanieMalcolm Barber opens a Pandora box...Hitler was the epitome of evil and had an agenda, one we may not have been aware of. Malcolm touches some hot buttons in this novel of secrets. The Vatican, as we know, is about as corrupt as any other government on the planet. Now we see how manipulating, calculating and in cahoots they were with the Third Reich, as well as other fascist dictators; hiding behind the skirts of God. How many people follow this false idol? How many died at the hands of Stalin, Hitler and Mussolini?Oh,

Malcolm thank you for opening my eyes. This is one WWII novel all should read. CJ Loiacono

Kurzbeschreibung Paul von Hauser, a German naval officer, has stumbled upon information of major importance; so vital to the Nazi regime that he is given free reign from Goring, Himmler and Hitler himself. Ever since the Roman occupation of the Middle East, which resulted in the destruction of the Temple of Solomon, Jews have had to pay in one form or another for their freedom in gold. Von Hauser's top secret mission is to seek those who have made it their life's work to study this subject, to follow the trail that will lead him to Solomon's Temple and the horde of blood gold collected for over 3000 years. This incredible story gives a new insight as to why the Jews have been persecuted and to what lengths. The role the Vatican played; how much violence they instigated and supported in the name of Christianity, and the reason Hitler's plan for ethnic cleansing succeeded so well.
