McKenna is at it again - her Italian JobVon Karen O.This book introduces you to McKenna Carmichael, she is part of a small group who kill for hire. She is following the important rule of not killing innocent people.With Venice Nights, Leigh K. Hunt has created a thrilling story with a hint of romance, the second instalment of the Nights Series. The story comprises a variety of characters with sufficient depth and a pretty good combination of fast-paced and slower-paced interactions. 'Mack' and her colleagues Chase, River and Gabe find themselves in competition with other killing teams when reaching the conclusion that Luigi seems to be innocent. I had a good time reading Venice Nights - it is an enjoyable read. I was drawn into the story on Mack's lonely train ride. Mack is a very complex character, sometimes on the verge of being annoyingly stubborn. The story has some very interesting turns and is cleverly elaborated, making it harder to put away as the adventure proceeds.This is for you if you like thrillers with a touch of romance, stubborn protagonists and clever turns.The second book in a promising series - to read again.Recommended.

KurzbeschreibungMcKenna Carmichael has a new job in the beautiful country of Italy. This isn't a pleasure trip: she must eliminate her mark and get out.Her target Luigi Donati is rich and handsome, and his fashion house leads charity work. But his dossier shows that's a front, hiding ties to where his real money comes from: slave labour.Mack realises that not only is Luigi innocent, but someone else is intent on killing him. Thrown by doubt, Mack must choose her role in this Italian job predator or protector.Join Mack on her next thrilling adventure in Leigh K. Hunt's new Nights series.

ber den Autor und weitere MitwirkendeLeigh K. Hunt is a reader, writer, mother, and wife from the Land of the Long White Cloud, otherwise known as Aotearoa, New Zealand. She has a weird obsession with books like Alice in Wonderland, Peter Pan, Pride Prejudice, and adores Thrillers and Dystopian novels. To say that she lives in her own dreamy wonderland is an understatement. As a child, her whole world was fantasy-based reality of tree huts, artistic endeavours, musical creations, and story inventions. She would only come back to the 'real world' to do the mundane things like feed the dog her broccoli or brussel-sprouts under the dining table. If Leigh could have one superpower in the whole wide world, it would be to have the ability to fold space and time, so that she could be anywhere, at any time. Leigh loves travelling with a fiery passion, and exploring foreign countries, delving into different cultures, and immersing herself with the people. In her adult life, she works full time, is a mother to a gorgeous but very lively three-year-old, and is married to her rock, Michael. She also has numerous mothers, fathers, and a couple of very special siblings who keep her grounded, despite her desire to permanently live inside her head.
